FITC Annexin V Apoptosis Detection Kit with PI Date issued: June 3rd, 2014 Page 1 of 5

SAFETY DATA SHEET

1.	Identification						
1.1.	Product Name		FITC Annexin V Apoptosis Detection Kit with PI				
	Catalog No.		3804570				
	Recommended Use		Research use only.				
1.2.	. Supplier Address Telephone, fax, email		SONY BIOTECHNOLOGY INC. 1730 North First Street, San Jose, CA 95112 U.S.A. Voice: +1 800-275-5963, FAX: +1 408-352-4130, SBTcustomerservice@sonybiotechnology.com				
1.3.	Emergency telephone number		ln case of a chemical emergency, spill, fire, or exposure, US: +1 800-275-5963 (6:00AM – 5:30PM PT, M-F)				
2.	. Hazards Identification						
2.1.	Hazard Classification		Not classified				
2.2.	GHS Label element	s, including precau	tionary statements				
	Pictogram Signal Word		None				
			None				
	Hazard Statement		None				
	Precautionary Statement		None				
3. Composition/Information on Ingredients

If breathing is dir tory protection. Do not use I attention.	N/A 011-004-00-7 occur after several hours; th rs after the accident. fficult/has stopped, give art mouth-to-mouth method o d clothes, andwash with soa	<0.1% 0.09%	

After eye contactImmediately flush eyes with plenty of water for at least 15 minutes,
occasionally lifting the eye lids to ensure thorough rinsing. Seek medical attention.Wash mouth out with water if person is conscious. DO NOT induce vomiting.

Drink copious amounts of water, milk, or milk magnesia if conscious. Seek medical

 Symptoms
 Contact may cause skin irritation. Contact may cause eye irritation.

FITC Annexin V Apoptosis Detection Kit with PI

5.	Fire-Fighting Measures			
5.1	Suitable extinguishing agents	CO2, extinguishing powder or water spray. Fight larger fires with water spray oralco- hol resistant foam.		
5.2.	Special hazards caused by the material, its products of combustion or resulting gases	During heating or in case of fire, poisonous gases may be produced.		
5.3.	Special protective equipment and precautions for fire-fighters	Wear protective clothing and self-contained breathing apparatus.		
5.4.	Hazardous combustion materials	No data available.		
6.	Accidental Release Measures			
6.1.	Personal precautions, protective equipment and emergency procedures	Not required		
6.2.	Environmental precautions	Prevent entry into waterways, drains, soil, and sewers.Use suitable absorbent material.		
6.3.	Measures for cleaning/collecting	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders).Do not allow to enter any water system.		
6.4.	Additional information	See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.		
7.	Handling and Storage			
7.1.	Information for safe handling	No special measures required.		
7.2.	Conditions for safe storage, including any incompatibilities	Do not store together with oxidizing and acidic materials as well as heavy-metal compounds.		
8.	Exposure Controls / Personal Pro	otection		
8.1.	Exposure limits			
	Sodium Azide Cal/OSHA PEL	Ceiling -0.1 ppm, 0.3 mg/m3		
	ACGIH TLV	Ceiling –0.29 mg/m3		
	NIOGU			
	NIOSH REL	Ceiling – 0.3 mg/m3		
8.2.		Ceiling – 0.3 mg/m3		
8.2.	REL	Ceiling – 0.3 mg/m3 Use only with adequate (local exhaust) ventilation or fume hood.		
	REL Exposure controls			
	REL Exposure controls Engineering Controls			
	REL Exposure controls Engineering Controls Personal protective equipment	Use only with adequate (local exhaust) ventilation or fume hood. Keep away from foodstuffs, beverages, and feed. Wash hands, face, and exposed forearms/areas after handling. Wash contaminated clothing before reusing.		

FITC Annexin V Apoptosis Detection Kit with PI

Hand protection	Chemical resistant gloves.				
Eye protection	Safety goggles.				
Body protection	Protective work clothing (lab coat).				
9. Physical and Chemical Properti	Physical and Chemical Properties				
Appearance Odor Odor threshold pH Melting point/freezing point Boiling point Flash point Evaporation rate Flammability Upper explosion limit Lower explosion limit Vapor pressure Vapor density Relative density Solubility Partition coefficient Auto-ignition temperature Decomposition temperature Viscosity Explosive Properties Oxidizing Properties	Liquid, Colored, clear Odorless Not available. 7.0-7.2 No Data Available No Data Available				
10. Stability and Reactivity					
10.1. Reactivity	No data available				
10.2. Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.				
·	Stable under normal ambient and anticipated storage and handling conditions of				
10.2. Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.				
10.2. Chemical stability 10.3. Possibility of hazardous reactions	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available				
10.2. Chemical stability10.3. Possibility of hazardous reactions10.4. Conditions to avoid	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals.				
 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals.				
 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 	 Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals. Nitrogen Oxides (NOx) Sodium azide is present in this product. Contact with acidic solutions and metal compounds over time may form potentially explosive metal azides. Should any of this material be introduced into a sanitary sewer system, flush with copious amounts 				
 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 10.7. Additional information 	 Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals. Nitrogen Oxides (NOx) Sodium azide is present in this product. Contact with acidic solutions and metal compounds over time may form potentially explosive metal azides. Should any of this material be introduced into a sanitary sewer system, flush with copious amounts 				
10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 10.7. Additional information 11. Toxicological Information	 Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals. Nitrogen Oxides (NOx) Sodium azide is present in this product. Contact with acidic solutions and metal compounds over time may form potentially explosive metal azides. Should any of this material be introduced into a sanitary sewer system, flush with copious amounts 				
10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 10.7. Additional information 11. Toxicological Information 11.1. Information on toxicological effects	 Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals. Nitrogen Oxides (NOx) Sodium azide is present in this product. Contact with acidic solutions and metal compounds over time may form potentially explosive metal azides. Should any of this material be introduced into a sanitary sewer system, flush with copious amounts of water. 				
10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 10.7. Additional information 11. Toxicological Information 11.1. Information on toxicological effects Routes of Entry	 Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure. No data available No data available Acidic materials and metals. Nitrogen Oxides (NOx) Sodium azide is present in this product. Contact with acidic solutions and metal compounds over time may form potentially explosive metal azides. Should any of this material be introduced into a sanitary sewer system, flush with copious amounts of water. Ingestion, inhalation, skin and eye contact.

	Respiratory or skin sensitization	No data available
	Germ cell mutagenicity	No data available
	Carcinogenicity	No data available
	Reproductive toxicity	No data available
	STOT-single exposure	No data available
	STOT-repeated exposure	Kidneys and central nervous system
	Aspiration hazard	No data available
12.	Ecological Information	
	Environmental Toxicity	No Data Available
	Aquatic Toxicity	No Data Available
	Persistence and degradability	No Data Available
	Bioaccumulative potential	No Data Available
	Mobility in soil	Water soluble
	Results of PBT and vPvT assessment	No Data Available
13.	Disposal Considerations	
	Disposal methods	Minimize waste as much as possible. Disposal must be made according to state and federal regulations.
14.	Transport Information	
	DOT (Ground)	Not regulated
	IMDG	Not regulated
	IATA	Not regulated
	ADR	Not regulated
	ADN	Not regulated
	RID	Not regulated
15.	Regulatory Information	
15.1.	Product related hazard information	The product has been classified and marked in accordance with regulations on

The product has been classified and marked in accordance with regulations on hazardous materials.

16. Other Information

16.1. Revision Date: June 3rd, 2014

This SDS was created in good faith based on our current knowledge at the time of creation and revision, but no warranty is made on the information, hazards, and toxicity data described. Prior to use, be sure to examine the latest information, rules, laws, and regulations of your country or region concerning hazards and harmful effects as well as regarding equipment to be used, and accord the highest priority to them.

The precautions described in this document assume normal handling of the product. When handling the product in an unconventional manner, be sure to take appropriate safety measures according the situation and take sufficient precautions.

All chemical products should be handled assuming the presence of "unknown hazards and harmful effects" and with the knowledge that such hazards will vary greatly depending on the usage environment, handling method, and conditions and period of storage. All handling of the product, including use, unpacking, storage, and disposal, should be performed only by specialists with professional knowledge and experience or under close supervision of such qualified specialists. It is the sole responsibility of the user to ensure and provide proper safe use conditions.
